JWF's Mission

Jacob Wetterling Foundation educates, advocates and responds to reduce the number of missing and sexually exploited children and teens.

Educate. We believe adults and communities are responsible for protecting children and teens. JWF educates and provides tools necessary to spark community-wide conversation and action.

Advocate. We believe children and teens have the right to live in nurturing environments free from victimization. JWF advocates for policies that promote the health and safety of all children and teens.

Respond. We believe the impact of child and teen victimization is devastating and far reaching. JWF responds to victims, their families and communities to help them heal.

Jacob Wetterling Foundation

Prevention through education

- Education & awareness raising works at all levels:
 - Government and organizational policy makers
 - Community leaders & youth workers
 - Other adult community members
 - Parents and caregivers

CHILDREN

- Parents and caregivers
- Other adult community members
- Community leaders & youth workers
- Government and organizational policy makers

Jacob Wetterling Foundation

What were you taught?

One day - One message “Don’t Talk to Strangers”

So what’s wrong with that?

- **Don’t talk to Strangers**
 - Who is a stranger?
 - How do they get help? (Brandon’s story)
 - If stranger = danger then friend=safe right?
- **Don’t get in a car with someone you don’t know**
 - Or someone you do know! Have a code word and ground rules
 - CHECK first!
- **Don’t take candy from strangers**
 - It’s a new world - not just a stranger who may offer “candy”
 - Today’s “candy” - money, i-pods, clothes, favors and attention/affection

Jacob Wetterling Foundation

What are we teaching today?

- **More** – parents are becoming aware of the risks and are talking to their kids. Just being here today puts you light years ahead
- **Not Enough** – It's awkward, we worry so we talk to them “when they're ready” which really means, when we're ready
- **Children learn best through repetition**
At school - entire week Fire Safety, Bus Safety & Tornado Readiness all VERY important messages but where is personal safety?
 - Appox. 1,000 tornadoes p/y in US vs 2100 children missing each day

Jacob Wetterling Foundation

What is child sexual exploitation?

- There is a strong link between abduction and child sexual exploitation!
- CSE includes trafficking, prostitution, sex tourism, mail-order-trade, pornography, stripping, battering, incest, rape and sexual harassment.
- Adults who engage in child sexual exploitation generally do so to achieve sexual gratification and/or financial gain or advancement in-person or online.

Jacob Wetterling Foundation

Why has this issue exploded?

Former U.S. customs agent Marcus Lawson

“I don’t think the Internet has created more pedophiles.

It’s removed the societal stigma that kind of kept people in check,” he said. “Before the Net, pedophilia was a lonely business. Now 24 hours a day, seven days a week, you can validate yourself, find hundreds and hundreds of people who will tell you there’s nothing wrong with having sex with children.”

Jacob Wetterling Foundation

Victimization Facts

- **Abduction is rare:** 115 *stereotypical* abductions occur annually
- Sexual exploitation is more common:
 - 1 in 6 girls
 - 1 in 10 boys

NCMEC & Crimes Against Children Research Center:

- 1 in 4 children has had unwanted exposure to sexual images
- 1 in 5 children has received sexual solicitation online
- 1 in 33 has received an aggressive solicitation

National Juvenile Online Victimization Study:

- Victims- 76% 13-15 years old; 75% girls
- Offenders- 99% male; 92% Caucasian; 86% 26 yrs or older

Jacob Wetterling Foundation

Myths and Realities

MYTH: An offender will sneak up and take a child by force.

REALITY: Offenders typically are “too nice” they befriend the child over a course of weeks/months, to gain their trust. They “test” the child periodically to see if they can move to the next step and to make sure their secret is safe.

MYTH: Child sexual abuse and abduction are most often committed by strangers.

REALITY: Between 80-90 percent of people who abduct or sexually harm children are known to the child or family.

MYTH: Children do not sexually abuse other children.

REALITY: Up to 50 percent of people who sexually abuse children are under the age of 18.

Jacob Wetterling Foundation

Myths and Realities

MYTH: Youth victims are forced into face-to-face meetings with offenders.

REALITY: The vast majority of victims agreed to meet offenders (83 percent) and 73 percent of victims met the offender on more than one occasion.

MYTH: People who commit crimes against children are strangers and pedophiles.

REALITY: Most people who commit online victimization crimes do not appear to be pedophiles; 99 percent of victims were 13-17. Additionally, most victims communicated with their offender extensively before meeting.

Feeling **Hopeful**

Too much information (TMI)

Revealing kids Child bloggers often post plenty of personal details on their web sites.

DISTRIBUTION OF DISCLOSED PERSONAL INFORMATION

SOURCE: David Huffaker, Georgetown master's thesis

MSNBC

"I don't see why pedophiles wouldn't use this tool, if this is where kids are," said Ann Coulter of Net Family News.

A study by the Children's Digital Media Center at Georgetown University revealed that kids volunteer far too much information. Two-thirds provide their age and at least their first name; 60 percent offer their location and contact information. One in five offer up their full name.

Jacob Wetterling Foundation

What are they doing that's so bad?

- WiredSafety.org program, says

"There are underage kids on every social networking site on the Net. They are engaging in highly provocative conversations and doing things they would never do offline. Many authors try to outdo each other to get visitors. Often, that includes provocative comments and images. "It is an attention competition"

Online Harassment

- Cyber-bullying
- Example a vengeful classmate might sneak a compromising photo with a camera-equipped cell phone, then threaten to put it on the Internet unless some form of payment is made.
- "It's the kind of thing we used to do on bathroom walls, only this bathroom is seen by 700 million people,"
- **PSA "Talent Show"**

Jacob Wetterling Foundation

Basic Online Safety

- ✓ Don't take the computer away from children and teens
- ✓ Put the computer in a common room in the house
- ✓ Sit down with your child and learn together
- ✓ Monitor the amount of time children spend online
- ✓ Set clear boundaries for computer/technology use

Jacob Wetterling Foundation

What are the signs of trouble online?

- **Spends large amounts of time on-line, especially at night**
- **Pornography on your child's computer**
- **Receives phone calls, is making calls, sometimes long distance, to/from numbers you don't recognize**
- **Receives mail, gifts, or packages from someone you don't know**
- **Turns the computer monitor off or quickly changes the screen on the monitor when you come into the room – Changes to default settings**
- **Becomes withdrawn from the family**
- **Using an on-line account belonging to someone else**

Jacob Wetterling Foundation

What can you do?

- **Know the risks**
 - AGE – the brain’s ability to reason does not fully develop until about age 25
 - Low self-esteem, poor self-worth
 - Lack of supervision, guidance and attention
 - Exposure to unsafe situations
- **Teach them to be smart, responsible users of the Internet**
 - **Think before they click - “Take 5”**
 - Before responding and avoid spreading rumors, assisting in cyber-bullying or sharing private communications online
 - **Don’t post pictures online**

PSA “Bulletin Board”

Jacob Wetterling Foundation

Keep it said, keep it simple, keep it safe!

- **Clearly outline acceptable computer use** – with your kids, your kids friends (parents) and your care providers/baby sitters
 - Discuss and post guidelines for acceptable use of Cell phones and other devices used including magazines, games, other materials
- **Educate often** – keep it fresh & simple “BE SAFE!” Use teachable moments!
- **Be available** – find out what your child knows about sex & about violence
- **Handle it** - Let them know you can handle it if they need to talk and they will have some control in what happens next!

Jacob Wetterling Foundation

Care and Click!

- Learn how to examine your Web browser's "History" files,
- Google your kids and their friends - get to know your children's cyber-friends
- Know all your child's e-mail accounts & passwords
- Tell your kids to stay out of chat rooms
- Install spyware and adware blocking software on your computer
- Consider monitoring software
- Make sure you have a working firewall & install anti-virus software - update it regularly
- Take advantage of spam-blocking tools offered by your Internet provider or e-mail software
